## SKILLS

GitLab	Jenkins	Github Actions	Docker	
Terraform	AWS	Django	Flask	NGINX
Bash Scripting	Linux	HTML	CSS	Javascript
Python	CI/CD	PostgreSQL	Agile SDLC	Vagrant
Oracle VM Virtualbox	Test Driven Development			
Next.js	Ubuntu	TailwindCSS	RESTAPI	Insomnia

## EDUCATION

### Web Development Fundamentals

[Nucamp Coding Bootcamp](#)

📅 01/2022

### Data Structures and Algorithms with Python

[Nucamp Coding Bootcamp](#)

📅 02/2022

### SQL and Data Modeling with Python

[Nucamp Coding Bootcamp](#)

📅 06/2022

### Modern Software Engineering With DevOps

[Nucamp Coding Bootcamp](#)

📅 08/2022

## EXPERIENCE

### Licensed Real Estate Salesperson

[Nest Seekers International](#)

📅 2018 - 2022 📍 Brooklyn, NY

Real Estate Brokerage Firm

- Built and maintained strong client relationships through exceptional communication and understanding of individual needs and preferences
- Conducted thorough market research and analysis to accurately price properties and advise clients on market trends and potential investments
- First year of brokering sale(s) transactions totaled \$3MM+ in volume
- Proactively engaged in prospecting activities to identify potential buyers and sellers, effectively expanding the client base
- Proficiently managed contracts and agreements, ensuring legal compliance and smooth transaction processes
- Took proactive initiatives to pursue real estate education, certifications, and workshops, staying updated on industry trends, regulations, and best practices
- Garnered positive client testimonials and referrals, reflecting a high level of satisfaction and trust in service delivery

## PROJECTS

### Django Recipe RESTAPI Application Deployed To AWS via GitLab

📅 09/2023 📍 Union City, NJ

#### Highlights

- Defined and managed infrastructure components such as EC2 instances, ECS, Route53, and related resources using Terraform
- Set up AWS CloudWatch for tracking application performance and issues
- Configured GitLab CI/CD pipeline for automated testing, building, and deployment of the application
- Applied test driven development to ensure the application functioned correctly and meets quality standards
- Optimized AWS resource usage through Terraform configurations to manage costs effectively while ensuring performance
- Utilized NGINX as a web server to serve Django application, enhance performance, and manage incoming HTTP requests

### Basic RESTAPI Application Deployed To AWS via Bash Script(s)

📅 05/2023 📍 Union City, NJ

#### Highlights

- Created update and setup Bash script(s) to automate the deployment process of the application on EC2
- Developed application in local development server via Vagrant
- Created a profile feed API for authenticated users within the application
- Set up a Git repository to version control the application code and related scripts
- Used Django models to create a SQLite3 database that interacts with the application when called

### Containerized Tutorial Application via Docker with PostgreSQL Database

📅 05/2022 📍 Union City, NJ

#### Highlights

- Containerized the PostgreSQL database using an official Docker image, configuring necessary settings and data persistence
- Utilized environment variables within the Docker Compose file for configurable settings, such as database credentials and application configurations
- Configured Docker networking to enable communication between the application container and the PostgreSQL database container
